It seems

Midori's??

A Turtle God
suddenly
makes an
appearance.
Nanao.

神さまの
言とおろ。

The story so far: University student Hinata, ever since he was young, has always been with Midori who is his only family. He has been raised lovingly by the overprotective Midori, even though there seems to be no blood relation between them. The truth is, being a Katsuragi god, Midori gets his energy from exchanging with a spouse which is vital for him and Hinata knows it. Hinata, who doesn't want to use his beloved Midori, begs him to have sex with him, becoming a god's lawfully wedded "wife".....?
